The above change was made to place the application in better condition for allowance.

***REASONS FOR ALLOWANCE***

The following is an Examiner's Statement of Reasons for Allowance:

Claims 1-49 and 51 are allowed because none of the prior art references of record teaches a fluid supply comprising at least one fiber that is disposed within a reversibly fluid absorbing material, the at least one fiber having a fiber surface energy, wherein the fiber surface energy is less than a first surface energy of the reversibly fluid absorbing material in the combination as claimed.

Claim 50 is allowed because none of the prior art references of record teaches a replaceable container for a consumable liquid comprising one or more fibers having a second surface energy that is disposed within a fluid absorbing material, wherein a first surface energy of the fluid absorbing material is greater than said second surface energy in the combination as claimed.

***CONCLUSION***
